

Hi! This video is presented by the ERC Peer Advisors and it will address how to search for community college courses using Assist.org and see if they are acceptable to complete Partial IGETC requirements at UC San Diego.

In this example, we will be looking up courses under San Diego Mesa College that are applicable for IGETC at UC schools. The first step is to go to <u>http://www.assist.org</u>.

L SELEC		
Welcome to ASSIST		Gurit - D
	sist.org/web-assist/welcome.html	:
ASSIST Home About ASSIST FAG & Uhing ASSIST What & ASSIST? Mate & ASSIST? Afficiation Agreements	Welcome to ASSIST ASSIST is an online student-ransfer information system that shows how course credits earned at one public California college or university can be applied when transferred to another. ASSIST is the official repository of articulator for California's public colleges and universities and provides the most accurate and up-to-date information about student transfer in California. There are two ways to look up information in ASSIST. Explore Transfer Information	More Information ASSIST does not take the place of a counselor on your campo. It is interded counselors work together to establish an appropriate from a public California community college to a public California university.
C-ID CSU American Ideals CSU GE-Breadth Exploring Majors IGETC Transferable Courses UC Transfer Admis Eligibility Related Information	If you have already chosen a major or know what kind of information you want to see, select the transfer information you want to display by choosing an institution below. You can select the institution you are transferring from or to. Click here to select an institution Explore Majors	
ASSIGT Information Center SPU Admission General Advising International Transfer Interstate Transfer Interstate Transfer Private Institutions Related Step Schodules and Catalogs Transcripts UC Admissions Transfer Entimyts ADT Tensmer Entimetts	If you want to find out about a specific major, search for majors that interest you, or explore majors available at university campuses in California, click Explore Majors below. Explore Majora	

On the "Welcome" page, click on the "Click here to select an institution" pull down menu and select the community college where you have taken courses or plan on attending. In our case, we'll select San Diego Mesa College.

Once you have selected your institution, click on the "IGETC for UC and CSU" link under the "Courses Applicable for Transfer" header

After you have clicked on "IGETC for UC and CSU," there are two ways to look up courses that can count towards IGETC. We'll start with the first one, which is looking by department.

Select the department of the course you are looking for. In this case, we're looking for Biology classes so we'll select the Biology department.

The next column tells you which quarter that course was approved for the IGETC area. The letter refers to the semester and the numbers referring to the year. F stands for Fall, W stands for Winter, and S stands for Spring.

In this example, the first row says, "F91". This means that BIOL 100 from San Diego Mesa College was approved in Fall 1991 for Area 5B for the IGETC agreement. So as long as you took BIOL 100 during Fall of 1991 or after, it is applicable to the Area 5B of IGETC.

The last column indicates if the course has been removed from being approved for the IGETC area. For example, the second course, BIOL 105, is not eligible for Area 5B of IGETC if it was taken after Fall 2000. If it was taken between Fall of 1991 and Fall of 2000 then it would still be applicable for Area 5B of IGETC.

Make sure to read every column carefully when planning your courses.

Let's go back to the page where you clicked on "IGETC for UC and CSU".

The other way to find courses that can count towards IGETC is by searching the IGETC Area you want to complete. Use the pull-down to select the area you're looking to complete. In this example, we'll look at Area 5.

As in the previous example, courses will be listed with their course number, title, number of units, and when it was approved or removed for application to the IGETC area.

The different here is that the top of the page will tell you what IGETC Area you're looking at and another header below that showing what specific section of that area the course could be applied to.

There is also another column that shows whether the course can be counted towards more than one IGETC area.

For more information about transferable and articulated courses, transferring your course credits to UC San Diego, and using Assist.org be sure to check out our other videos.

This concludes the tutorial video. If you have any questions, feel free to contact ERC Academic Advising using the Virtual Advising Center at http://vac.ucsd.edu, by phone at 858-534-9864, or visit our office on the third floor of the ERC administration building during walk-in hours.

Thank you for watching! Have a great day!
